resentment by driving

such officers out of their
positions.

If the white people don't
want their children to be
surrounded by negro riff-
raff they are entitled to
that. If the negroes don't like
that let them go back to
where they came from.

Unless the State Education

Department is willing
to protect its noters
Citizens it is not
worthy of their con-
fidence. There surely
must be a solution to
the problem. Let's all see
how smart the Educators
Dept is to find out how
to satisfy the roberts people
of this state?
