#2. SARAH BEDORSKI.

In Europe I worked much harder than here, and I got only \$1. a week. I have to look after my mother who is a widow. I came to this country thinking that I could make more money, but it is hard to live on only \$5. a week. My sisters give me some of their clothes to wear, so that I do not know how much it would cost to dress, but I think, if I had \$6. a week, I could live pretty good."
