it will depend on conditions of my finances as I have payments coming due in near future

as you know my income has been reduced by slump in bond and stock markets many of my holdings have reduced interest rates, also Puget Sound Nav. Co. have not paid dividend in two years when Times improve and Real Estate market comes back would suggest you dispose of your property and live in or near some city - that offers more work than Braidwood. Wish you will take no offence at my suggestions + that you may soon find work I am yours  
Sincerely  
Geo.
