

## Report on Cadet Service;

I worked on my father's farm which is located about three fourths of a mile from the village of Maryland. The work in which I was engaged was house-work and farm-work. My work in the house consisted of baking, washing, sweeping, mending, washing windows, canning fruit, and helping clean house. My out-door work consisted of dragging weed-ing in the garden clearing off horses, milking, going a berrying, sprouting potatoes, mowing down hay, raking up hay, loading hay, pitching hay back in the mow, helping plant the garden, feeding and watering the hens and chickens feeding the horses, hitching and unhitching the horses, taking the milk to the milk station and picking stone. My usual hours of labor are from 6.30 A.M. to 7.30

P.M. I never worked less than ten hours a day.

I commenced my cadet service May 2nd and finished my cadet service August the 24th. The days in which I was not employed are three.

I think cadet service is a very good thing as long as the girls can take the places of men who are needed for our army and navy. The farmers who are unable to get men help are glad to get girls to help them get in their crops. If there were no one to help the farmers, they would put only a few crops in; just what they would need themselves. It would not be long before our soldiers and sailors would be starving. The farmerettes have tried to do their best and have been very successful. The work which they have done shows that they are capable of doing farm work. I think it is nice to be a farmerette to show that you are

capable of doing farm work. It also shows that one tries to be patriotic to their country and that you want to try to do your best to help win the war.

Report on Cadet Service

I worked on my father's farm which is located about three fourths of a mile from the village of Maryland. The work in which I was engaged was house work and farm work. My work in the house consisted of baking, washing, sweeping, mending, washing windows, canning fruit, and helping clean house. My out-door work consisted of dragging weed-ing in the garden cleaning off horses, milking, going a berrying, spouting potatoes, mowing down hay, raking up hay, loading hay, pitching hay back in the mow, helping plant the garden, feeding and watering the hens and chickens, feeding the horses, hitching and unhitching the horses, taking the

milk to the milk station and  
picking stone. My usual hours  
of labor are from 6:30 A.M. to 7:30 P.M.

I never worked less than  
ten hours a day.

I commenced my cadet service  
May 2<sup>nd</sup> and finished my cadet service  
August the 24<sup>th</sup>. The days in which  
I was not employed are three.

I think cadet service is a  
very good thing as long as the girls  
can take the places of men who  
are needed for our army and navy.

The farmers who are unable to get  
man help are glad to get girls to help  
them get in their crops. If there were  
no one to help the farmers, they  
would put only a few crops on; just  
what they would need themselves.

It would not be long before our  
soldiers and sailors would be starving.

The farmerettes have tried to do

their best and have been very successful. The work which they have done shows that they are capable of doing farm work. I think it is nice to be a farmerette to show that you are

capable of doing farm work. It also shows that one tries to be patriotic to their country and that you want to try to do your best to help win the war.
