My Esteemed SIR,-

The press reported to day, of your desire to settle the Hillburn N.Y. School dispute, between the Negroes and Whites. I hate any kind of prejudice and I have no such racial or religious prejudices. This letter is written from a sociological point of view only.

For of all the social problems before the American people for its solution, there is none perhaps of more fundamental importance, than that created by the Negro question in our realm, how to give them equality, but not let this minority rule the majority, because of political expediency, or the social so broadminded parlor attitude. Democracy assures one only of judicial and political equality, and NOT social equality. And once we allow the colored element to socialize with our white race, it will lead as it always does, to such racial miscegenation, and the gradual bastardizing of the white race, -and the degenerate mongrel race will emerge.

The fact that white people do not want to have their children mix with the Negroes does not mean prejudice, no more than if white parents will not allow their child to socialize with an other white child, for reasons that it may not ~~th~~ meet their standards.

Please realize, that race which is everything is the soul of our civilization, while civilization is but the body of this soul. And if we allow the destruction of this soul by such socialization etc, eventually the body, our civilization, will decay fast.

God or nature has created these separate races like family like groups, and democracy not with standing, can ^{not} change it.

"And those who believe that Negroes are capable of acquiring a higher civilization with out undergoing a phylogenetic cerebral transformation for 100,000 years, are UTOPIANS" (from The Sexual Question by Forel page 508)

"Injuries produce hatred, and that hatred will find the opportunity of revenge" (Gibbon's Decline & Fall of the Roman Empire vol. 3 page 713)

The Negro suffers from what is known as "Oppression Psychosis" which articulates such attitudes as, fear, hatred, jealousy, resentment, suspicion, and REVENGE, (see Races, Nations, & Classes by Herbert A. Miller chapter 4 & 8-)

And because of democracy equality, the Negro wants to live in the same white sections, visit the same white Hotels, restaurants, Clubs, amusements places etc. And the Negro does not realize, that while he is tolerated by the white people, that he incurs attitudes of real racial prejudice against him, by this attitude of pushing in where, not wanted.

The white people have a right to demand for their children the right ~~th~~ that they should ^{not} be mixed together with the Negro children. They pay more taxes than do the Negroes.

The facts are, that in societies where the Negro dominates, the white people are oppressed with a real vengeance. For example Liberia, created and protected by the white race, yet a white individual has no right to vote, nor to own property.

No one denies the Negro any judicial nor political rights. But every individual of the white race ~~has~~ ^{has a perfect right} to deny him, or any other group, social equality. And the sooner we put our foot down on this problem, and the Negro will realize this, the better will it be for the supremacy of the white race.

Cordially Yours C.R. Wilmer *C.R. Wilmer*
